ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: A GARDEN-CONTROLLING SYSTEM

(57) Abstract: A garden-controller system is disclosed. The system is built up from a plurality of area-controllers, a garden-con-
troller that is located in each controlled garden in order to control the area-controllers in its garden and a dedicated software installed
on a computing means or in a dedicated web site on the Internet. Each of these area-controllers is programmed to operate and control
the needed tasks in the area where the area-controller is located. The program can be updated and/or modified by the garden-con-
troller. The system and its parts are capable of communicating via any communication infrastructure including the Internet.
